USDAO
USDAO

- Stablecoin as a service
- ntralized
- Community Governed
- Crypto-Backed
- Soft-pegged to 1 USD

Issues:

with BTC, ETH and other stablecoin in market

- Very high volatility
- Lack of transparency
- Lack of governance

Numbers:

Lets discuss them

3.87% is total cash reserve tether has on its $62 billion reserve.

From $9 billion market cap to $62 billion market cap in 1 year

Highest 24-hour volume - $203 billion on a $59 billion marketcap this happened due to market crash

Source : CMC

Others:

Not only tether but also other stablecoins saw a more than 500% increase in marketcap in one year period

USDC : Marketcap increased from $1 billion to $24 billion

BUSD: Marketcap increased from $174 million to $10 billion plus

USDAO Ecosystem

3 Token Self-Healing System

USDAO Stablecoin

- The stablecoin based on ERC-20

- Soft-pegged 1 USD

- Minted from USDAO pool by staking ETH

- Tradable on CEX and DEX

- SDK available for easy integration

ASSET

- A utility token based on ERC-20
- Stability creator for USDAO stablecoin price
- Minted from USDAO pool by staking ETH
- Tradable on CEX
- Minting and Defunding Tax: 0.2% and 0.3%, respectively
- Arbitrage opportunity for traders

DAOGOV

- The Governance token
- 1 token is equivalent to 1 vote
- 10 Million governance token supply
- Tradable on DEX only
- USDAO pool will be funded with DAOGOV token sale
- Voting rights and proposal rights to make changes in USDAO ecosystem to DAOGOV holders

Staking

- USDAO staking reward at fixed 8% APR
- Lock periods – 6 months, 12 months, 24 months
- 18 months, 24 months, 30 months and 36 months

Usecases

- USDAO is not only crypto backed but also powered by use cases under the umbrella of the USDAO Foundation to make USDAO ecosystem robust

- USDAO Foundation will be supporting 25 use cases soon. Some include:
  - Funding Tree – A truly Decentralized launchpad
  - Power Stake – Staking with stablecoin, never lose your investments gain
  - NFT marketplace for Gaming

- More use cases will be announced soon

- All the use case will pay a 1% tax on their total revenue toward the USDAO ecosystem for its improvement

Revenue

- USDAO minting fee: 0.03% of total transactions in USDAO

- USDAO burning fee: 0.05% of total transactions in ETH

- Asset minting fee: 0.2% of total transaction collect in Asset token

- Asset Burning fee: 0.3% of total transaction collected in ETH

- Transaction fee: 0.3% in USDAO fee on every wallet address to address transfer

- Staking fee: 0.2% of the principal amount
